## BACKGROUND OF BUSINESS

### A. Who are we

We are a trading company focused on recycled tyre products.

### B. What do we do

We trade and distribute used tyre products without any reprocessing. Our business focuses on collecting used tyres, sorting them into different grades based on condition, and supplying them to the appropriate markets.

Tyres that are still in good condition are sold to workshops for reuse, while lower-grade tyres are supplied to recycling companies and other industrial users. We ensure proper grading to match each customer's requirements.

We also manage logistics, storage, and delivery to ensure a smooth and reliable supply chain. Our goal is to provide cost-effective tyre solutions while supporting responsible tyre reuse and recycling practices.
