BACKGROUND OF BUSINESS

A. Who are we
We are a security services company providing professional security solutions to a wide range of commercial, industrial, and residential clients.

With many years of industry experience, we are committed to safeguarding our clients' properties, assets, and personnel by delivering reliable, responsive, and high-quality security services.

B. What do we do
We provide comprehensive security services for buildings, condominiums, factories, offices, commercial establishments, and residential premises.

Our services include:

- Security guarding services
- Property and asset protection
- Access control and visitor management
- CCTV monitoring
- Entry and exit inspections
- Patrol and surveillance services
- General security management

Our business involves recruiting, training, and managing a team of qualified security personnel.

We work closely with our clients to provide customized security solutions that effectively protect their premises while meeting their operational and compliance requirements.

C. When did we start our business operations
The business originally commenced operations in August 2008, and the current management officially took over the business operations in July 2009.

Since then, the Company has continued to expand its client base by providing reliable and professional security services across various industries.

D. Where we are operating our business in
The Company operates from a home-based office located in Seri Kembangan, Selangor, where administrative functions, client coordination, scheduling, and operational management are carried out.

As security services are primarily site-based, our management team and security personnel are deployed directly to clients' premises to perform their assigned duties and oversee daily security operations.

E. How much have we invested into the business to-date
The Company currently has a paid-up capital of RM300,000, which has been invested to support its business operations, including working capital, recruitment and training of security personnel, licensing and regulatory compliance, office administration, operational equipment, and other resources necessary to deliver professional security services.
