BACKGROUND OF BUSINESS

A. Who are we

We are an established contractor specializing in **metal and engineering works**, providing customized and tailor-made solutions to meet the specific requirements of our clients across various industries.

Since commencing operations in 2017, we have developed extensive experience in metal processing and engineering works, supported by our technical knowledge, project experience, and long-standing client relationships.

B. What do we do

Our core business involves the design, fabrication, processing, and customization of metal engineering works.

Our principal client is a Singapore-based company specializing in the supply and installation of playground equipment and outdoor fitness equipment. Based on the client's specifications and project requirements, we provide customized metal engineering solutions, including the processing and fabrication of components required for their projects.

In addition to our main client, we also undertake projects for other customers requiring custom-made metal products and engineering solutions for various applications.

Our project-based approach allows us to tailor our production and manpower according to individual project requirements, ensuring that we are able to meet different specifications, quantities, and delivery schedules.

C. When did we start our business operations

We commenced our business operations in April 2017 and have been operating continuously since then.

Over the years, we have accumulated substantial experience in the metal and engineering industry and established a reliable customer base through consistent service, quality workmanship, and the ability to fulfil customized project requirements.

D. Where we are operating our business in

We operate our business in Gelang Patah, Johor.

Our factory operates within our main client's premises in Gelang Patah, where we carry out our metal processing, fabrication, and engineering works. Operating from the client's premises allows us to work closely with the client, coordinate project requirements efficiently, and facilitate timely production and delivery.

E. How much have we invested into the business to-date

We have invested approximately **RM300,000** into the business to date.

The investment has been utilized for machinery, tools, equipment, factory setup, materials, and working capital required to support our metal processing and engineering operations.

F. No. of Outlets/Branches we have now (if any)

Nil.

G. Our Financial Summary

Year	Turnover	Total Expenses	Profit / (Losses)
2025	RM1,400,000	RM1,260,000	RM140,000
2026 up to date	RM930,000	RM837,000	RM93,000

H. Experience of our Key Management Team

The owner has 19 years of experience in the metal and engineering industry, with extensive knowledge and hands-on experience in handling various engineering projects and meeting diverse client requirements.

Through years of industry experience, the owner has developed strong technical knowledge in metal processing and fabrication, as well as practical expertise in project coordination, material sourcing, manpower management, production planning, and customer requirements.

The owner's extensive experience enables the business to undertake customized projects efficiently and maintain long-term working relationships with its clients.

I. Staffing – Staff Strength

Owner – 1

Worker – 8 to 12 (based on project basis)

J. How we intend to use and repay the funds

This is our fifth funding request with Fundaztic. Our previous funding history is as follows:

- 1st Funding (2021): Utilized to support the Company's operating costs.
- 2nd Funding (2022): Utilized to purchase materials and support the Company in securing additional business opportunities.
- 3rd Funding (2023): Utilized for business expansion and to increase labour capacity in response to growing sales orders.
- 4th Funding (2025): Utilized to support further business expansion and cover operating costs.
- 5th Funding (Current): The current funding will primarily be utilized to support operating costs and purchase materials required to secure and fulfil additional business opportunities.

The availability of sufficient materials is important to our operations, as we need to procure raw materials in advance to commence production and fulfil customer orders according to the required project schedules.

We have maintained a strong repayment track record with Fundaztic and have never missed a single repayment in our previous funding facilities. Based on our established business operations, recurring project orders, extensive industry experience, and proven repayment history, we are confident in our ability to generate sufficient cash flow to meet the repayment obligations promptly and responsibly.

K. Other supporting information about our company**Platform Remarks**
